MEMORANDUM FOR All State ADSW Managers

SUBJECT: Active Duty Special Work (ADSW)

1. Reference AR 135-200, Chapter 6.
2. Immediate need for various rank soldiers in 62G \ 62N MOSs. See item #8 for additional requirements.
3. We are not accepting applications from soldiers assigned to critical units such as E Brigades and TO&E MI, MP, and SF battalions.
 - a. Sponsor Unit: Joint Forces Engineer Component Command, Alaskan Road Project, 7600 Ozark Road, Kansas City, MO 64129
 - b. Duty Location: Camp Wy Wuh, Annette Island, AK 99901.
 - c. For information on the positions contact: CPT Jeff Klosterman, Jeffrey.klosterman@us.army.mil Fax # 573-638-9568.
 - d. Tour Dates: Open until requirement is filled. Tours deploy on/about 16 Mar 04 with an end date 21 Sep 04.
 - e. Length of tour: tour is 190 Days.
 - f. Field Conditions: This is a Temporary Field Assignment (TFA) on a remote, austere island in Southeast Alaska. Assigned soldiers will live in a base camp setting. This is a limited season, multiyear IRT Engineering project with long work weeks. Historically this part of Alaska receives 114 inches of rain per year. Only wet-weather and cold weather field gear is needed. There is an average of one hour boat ride to get anywhere.
 - g. Per-Diem. Soldiers are paid normal 3/4 Travel per-diem for travel to and from home of record to Annette Island, AK. No other per-diem is paid due to this being a TFA.
 - h. Billeting: Government quarters are available. The base camp consists of a number Southeast Asia Huts (SEAHUTS) constructed of plywood and 2x4s. These buildings are heated and all of them are insulated. Bunks and wall lockers are provided, but space is generally limited. There are separate male and female latrines and shower facilities.

SUBJECT: Active Duty Special Work

They are equipped with flush toilets and hot water. The dining facility is excellent. Recreation facilities include a gym and a dayroom equipped with satellite TV, VCR, pool table, and ping-pong table. Horseshoe, volleyball, and basketball courts are also available. The camp PX is stocked with personal hygiene items, snacks, sodas, souvenirs and tobacco products and is open daily. Fishing is allowed from island waters without a license; however, one is required when outside of tribal waters. Phone communications and INTERNET access are limited. Cellular telephones have minimal reception on Annette Island.

i. OHA: Not applicable.

j. Rations: The meal cycle is A – MRE – A.

k. Travel: Upon approval, Alaska Command will pay travel costs.

l. Dependent Travel Authorized: No.

m. Rental Car Authorized: No.

n. COLA: For all tours in excess of 139 days.

o. HDP: Hardship Duty Pay is authorized for all soldiers.

p. POV Authorized: No. There are no POVs in Camp Wy Wuh.

4. Soldier qualifications:

a. Experience required:

(1) **MOSC 62G10.** Operates rock drills under supervision. Assist in the performance of combat engineer functions. **MOSC 62G20.** Directs quarry rock excavation to produce required sizes and tonnage of rock. Performs as blaster. **MOSC 62G30.** Plans and supervises blasting operations. Supervises rock production operations. Directs combat engineering missions. **MOSC 62N40.** Devises network flow diagrams such as critical path method and coordinates all work activities of supporting units. Provides supervision over all engineer construction equipment operations. Develops and executes a quality control plan. Plans for combat engineering missions. Soldiers with secondary MOS for a specific job are still encouraged to apply. All soldiers will be required to wear the Army class D uniform (BDU).

(2) All applicant should have a mental discipline and work ethic that will support 60-68 hours work stretches before a day off (i.e., 6x1 work schedules...6 days on, 1 day off) and working in a strenuous, stressful field environment and be capable of multi-tasking.

b. Applicants will have the required military and civilian education based on grade requirements. All drilling and blasting operations are performed through training and supervision provided by a Federal Highway's licensed civilian blaster. All soldiers will receive additional training on the

SUBJECT: Active Duty Special Work

maintenance and operations off commercial rock drilling equipment. All explosives are commercial grade to include ANFO, Water Gel and Slurry product.

c. Security clearance required: none.

5. Project Justification:

JTF Alaskan Road is an Innovative Readiness Training (IRT) and multi-year project whose mission is to construct a 14.7 mile road on Annette Island, the only Native American Reservation in Alaska. The purpose of this road is to connect the village of Metlakatla, located on the west side of the island, with a new ferry terminal on the north side of the island. This will enable the residents to have daily ferry service into the neighboring city of Ketchikan. This is joint military project with service members for all branches of service from active to the reserve components.

6. Interested applicants must meet their grade and MOS and fax their military bio, civilian resume (especially if it shows skills associated with a secondary MOS or consideration for a position outside of the soldiers MOS) and last three OER/NCOERs to CPT Klosterman at (573) 638-9568, for initial review and consideration.

- a. A completed Active Duty application (DA Form 1058-R).
- b. A signed release letter from your state Adjutant General.
- c. Current RPAS Statement.
- d. Meet height and weight standards IAW AR 600-9 (DA 5500-R/5501-R).
- e. Current proof of HIV testing within 6 months.
- f. Current APFT with passing score IAW FM 21-20.
- g. SF 88 & SF 93 (Army Physical) within the last five years.
- h. Annual Medical Certificate completed within 60 days to Tour start.
- j. A waiver request if the tour exceeds 180 days.

7. Contact your unit and/or state ADSW Manager for the DA 1058-R, TAG Release Letter, Greater than 180 day Tour Waiver and RPAS statement.
